

TIGERS AGAIN RUNNER-UP IN SAC TOURNNEY

The Elba Tigers must feel by this time that their fate is predetermined, as for the second year in a row they advanced to the finals of the South Alabama Conference Basketball Tournament only to be beaten by the champs. Last year, it was Andalusia, pulling it out of the fire in the last five seconds, 52-50. This year it was Troy, which beat the Tigers 42-36.

Troy led up to the third quarter in a close contest, but at that point, Carl Nelson's jump shot put the Tigers in front, 32-30. Their glory was short-lived, however, as they lost the lead moments later and never regained it. Carl Nelson led the Tiger scorers with 18 points. Ronald Giddens led the winners with 16.

Other scorers for Elba were Free 5, Jacobs 4, Young 8 and Locklear 3.

Semifinal Win
The Tigers had to fight for their lives Saturday afternoon in order to take a semifinal win from the strong Lufkin Tigers, 51-48. The game was close all the way and only last minute strategy by Coach Bill Strickland saved the day.

It was this same team that beat the Tigers 48-47 in the Lufkin Invitational Tournament during the Christmas holidays, and the Tigers were out for revenge. They got it, with Ronnie Young's 15 points paving the way. Free had 12, Jacobs 11 to aid the cause, followed by Chandler with 9, Nelson 7 and Locklear 6.

All-Tourney
The All-Tournament team consisted of John Atkins, Opp; Ronald Giddens, Troy; Jim Sanford, Lufkin; Jim Rose, Troy; Don McLeod, Opp; and Carl Nelson, Elba. The second team was Roland Jacobs, Elba; Mickey Andrews, Ozark; Kelly Cureton, Florida; Gray Elmore, Andalusia; Bobby Paschal, Enterprise; and Ronnie Young, Elba.

Mrs. America Gives Bonds at Christmas

"Savings Bonds belong on the Christmas tree," says Mrs. Margaret Fries, of Iowa, chosen Mrs. America in competition with representatives of all the states. This year, she chose a dark-haired mother of four children puts her family first, as usual in her Christmas plans. "As long as I can remember, we have had Savings Bonds on the Christmas tree," she says, "and this year it will be even more fun to tie them there. New Series E Bonds pay higher interest—3 1/2%—and they are better than ever, both to give and to receive."

JINX CO TAKES LIFE OF WOMAN, 64

A 64-year old grandmother was killed almost instantly in an accident last week at the Elba "Jinx Corner" in the Elba Clipper Sept. 17, last year, a series of accidents there over a period of months.

The intersection of Simmons and Addison streets, where the accident occurred, was first called "the jinx corner" in the Elba Clipper Sept. 17, last year, a series of accidents there over a period of months.

Instant Death
Just after noon of Wednesday, last week, an automobile going north collided with a truck going west with almost instant death to the driver of the car. She was Mrs. Decie Boutwell Spurlin, 64, of Elba.

Injured were her two grand-children riding with her: Cheryl Boutwell 5, and Donna Boutwell 3, both girls, and the driver of the city dump truck which their car collided was Junior Johnson 32, of Elba.

Both Children Home
Cheryl suffered cuts and bruises and returned home from the hospital Monday, this week. Donna suffered a fractured skull, brain concussions, cuts and bruises, and returned home Tuesday. Johnson suffered internal injuries and is still in the hospital. Miraculously, neither of the three suffered broken bones.

Police Chief William Williamson, who headed an investigation with city police, said the city dump truck, driven by Johnson, was going west when it was hit in the side by the automobile driven by Mrs. Spurlin. The traffic light at that intersection was working imperfectly and had been turned off, there being a stop sign at the Addison approach to Simmons street on both sides. City repairmen were on their way to make repairs when the accident occurred.

Survivors
Mrs. Spurlin is survived by her husband, Lawson Spurlin; two daughters, Mrs. Ruby Hillson of Dothan and Mrs. Mary Lynn Boutwell of Elba; one son, Edward Spurlin of Elba; two sisters, Mrs. L. J. Revel of Brewton and Mrs. B. F. Jackson of Elba; three brothers, W. C. Boutwell of Opp, J. A. and N. W. Boutwell of Elba; and three grandchildren. These included the two with her in the accident and Elba, aged 1 year.

Funeral services were held Friday from the Wesleyan Baptist church with the Rev. Wesley Bowden officiating. Burial was in Evergreen.

Demand Is Ahead Of Supply At Federated

The demand was greater than the supply in the Federated's January White Sale last Friday and Saturday, again proving that the customer and store both benefit from newspaper advertising.

For instance, the Federated advertised towels two for a dollar and anticipated a demand for 12 dozen. Instead, these were all sold the first day and the store found it could have sold four times as many. The story was similar for other items advertised in The Clipper last week.

Red Cross Elects Officers For 1960

K. C. Anderson, treasurer of Dorsey Trailers, was elected president of the West Coffee County Chapter, American Red Cross, at the annual meeting Monday, succeeding W. L. Brunson.

Other officers elected were: Shelby Morrow, vice chairman; Mrs. Martha Kate Martin, secretary; Mrs. Mary Alice Lee, treasurer; Drexel Cook, fund campaign chairman; Mrs. Dorothy Lindsey, assistant fund campaign chairman.

March of Dimes Waged Here

Brunson With Poster Girl—

Jerry Brunson, chairman of the Coffee County March of Dimes, is seen here with two-year-old Mary Beth Pyron, daughter of Mr. and Mrs. James Thomas Pyron of Florence, Ala., who has been designated National Poster Girl this year. Mary Beth was born with an open spine and water on the brain and here is one of thousands whose treatment is made possible by the March of Dimes.

All proceeds from traffic tickets for over-parking and passing stop signs without stopping the people who support it. (A sample of the questionnaire is on this page.)

Plane Flights
The March of Dimes will be at a rate of 1c per pound of the passenger's weight or \$1.00 per person, whichever the passenger chooses.

Founded in 1938 by Franklin D. Roosevelt, the National Foundation is the only voluntary health agency in America to have mastered the secret of a major disease. The discovery of the Salk vaccine was welcomed by an alarmed nation in 1955 and has proved an effective answer against the polio epidemic.

Since the fight against polio has been won, money from the March of Dimes is being used to support the fight against birth defects, arthritis and those who continue to be stricken by polio due to failure to take advantage of the Salk vaccine.

RIVER SURVEY REPORT HEARD BY ELBA MEN
Four Elba members of the Choctawhatchee - Pen River Development Association went to Geneva Monday evening to hear a preliminary report on a feasibility study of the project made for the Florida Geological Survey by Abbott, Meritt and Company, Inc., Engineers of New York City and Jacksonville, Fla.

The report was made possible by an appropriation of \$25,000 by the Florida legislature for a study of the benefits from development of the river which flows from Alabama through Northwest Florida to the Gulf of Mexico.

Members attending from Elba were L. B. Murphree, E. D. Brazelton, Robert Mason and Thorne Lane, who were among 128 persons from all parts of the watershed.

The report was read before a group which included Hugh C. Conner, Jr., assistant chief of reports, U. S. Engineers, Mobile; Dr. C. O. Vernon, director of the Florida Geological Survey, Tallahassee; H. L. Rosenfield and E. W. Bassett, Choctawhatchee and Pen river valleys and the potential service to industries that would derive from deepening the rivers.

Homemaker—TIGERS END LOSING ROW TO BEAT OPP

The Elba Tigers, paced by sharpshooting guards Roland Jacobs and Ronnie Young, squeezed past a strong band of Opp Bobcats in the Elba gym, 58-54 Tuesday to break a two-game losing streak.

Young's five field goals in a nip-and-tuck fourth quarter clinched the hard-fought victory for the Tigers, giving them their fourth conference win against one loss. They are tied for second place in the conference.

Jacobs and Young led the Tigers, who finally found the range after two cold-shooting games, with 18 points each. Forward Carl Nelson contributed 14.

Other scorers for the Tigers were Locklear with 4 and Free with 2. Jim McLeod and Don Atkins with 17 and 16 points respectively led the losers.

First Conference Loss
The Tigers were handed their first conference loss of the season Friday night in the Elba gym when they lost to the Ozark Eagles 40-39 in a contest that was thrilling from start to finish.

The locals just couldn't find the range in the first half, and were trailing in the third quarter, however, they tied the game at 26 to 26.

From there they took a three-point lead, only to see it taken away from them by the bull-hawking Eagles, with only seconds to play.

Leading for the Tigers was Carl Nelson with 12 points, with Locklear 7, Jacobs 10, Young 9 and Free 4.

Lamar Andrews and Wendell led the winners with 12 each. The Bees also lost their contest with a score of 43-29.

Second Loss In Row
The Tigers dropped their second in a row Monday night when they lost to the Dothan team when the up-and-coming Dothan Tigers edged them out, 46 to 44. The Tigers trailed at the end of the first quarter, 15-11, but were ahead 23-22 at the end of the half.

The Bees also dropped their game.

Elba C. of C. Hears Army Officer Speaks
Lt. Col. Roy H. Sheehan, who is second in command at Eglin Field, told the Elba Chamber of Commerce at a dinner meeting Tuesday evening that "when you start fooling around with missiles it is only about 30 minutes from here to Moscow—unfortunately, it is only about 30 minutes from Moscow to here."

The commanding officer described the various stages of plane and missile development and concluded by saying that in a missile war both sides would be destroyed. "Then why do we continue to develop missiles? Because no other nation is any more anxious to commit mass suicide than we are and we must let them know that if they destroy us, they will be destroyed too."

ABOVE THE AVERAGE

The tragic automobile accident last week that took the life of one person, and seriously injured three others, in downtown Elba, only serves to emphasize the fact that the automobile accident rate in Coffee county as a whole is greater than for the nation as a whole.

Coffee county's general accident record is gathered each year as part of the U. S. Government's annual vital statistics survey and released through the U. S. Public Health Service.

During the year ending January 1, 1958, the survey shows, there were 18 fatal accidents among Coffee county residents, eight of them attributed to motor vehicles. (The figures for 1959 are not yet compiled).

Related to Coffee county's population, the accident toll was at the rate of 62 fatalities per 100,000 people. This compares unfavorably with the figures for the United States as a whole, which averaged 55 per 100,000. It was also slightly above the rate for the East South Central States which was 61 per 100,000.

Considering the average cost per accident, the survey showed that the total cost of the 18 fatal accidents in Coffee county was \$2,266,000 or an average of \$125,888 per accident. Of course this takes into consideration the years and months of hospital treatment, surgery and rehabilitation for victims of an accident which sometimes total many people.

So what's to be done?
The answer lies with you and me. Of course you may say: "But it's the job of the police to enforce the law," to which the truthful answer is: "But only with your support." In a democracy, police and the courts can go only so far as the public is willing for them to go.

Are you willing for Elba, once each year to station a policeman at an intersection and ask to see the driver's license from every driver who passes? And to be effective it would be necessary that this be done for one full week. It's the only way to determine how many are driving without a license.

And if the police arrest one of your friends for speeding, whom do you criticize first, the policeman or your friend? Ask any policeman if he has ever known a rookie who immediately started out to stop every speeder and stop sign violator? Then ask him how long it was before this same policeman came back to the station and said: "Looks like I'd better cut that out if I want to keep my job."

No, don't begin by telling the mayor and city councilmen that you want traffic laws enforced. Instead say: "I won't say a word if I or one of my friends is fined."

That will give him a come-back when your son, mother or friend is ticketed and fined for running across a stop sign without stopping.

-SOIL NEWS-

By T. C. Self

Soil Conservation personnel have completed survey on terrace lines on the T. E. Kilcrease farm in the Pine Level community. Two fields with a total of 50 acres were terraced. Waterways were shaped and prepared for planting to bahia grass.

Mr. Kilcrease is well pleased with his new system of terraces. He told us he counted more than 40 patches of short rows in the old system. Without question the time of cultivation will be reduced considerably.

The old terraces had been plowed for many years and most of the topsoil in the field was in the old terrace lines.

Also the break furrows were bedded out to the subsoil. In general the field was benched and bedded out pretty bad before the smoothing was done.

Elmer Bryan of the Pine Level community is getting 60 acres smoothed and prepared for parallel terraces. Mr. Bryan is a supervisor of the Coffee County Soil Conservation District.

Buck Campbell has made ap-

plication for ACP assistance on terracing approximately 150 acres on his Danley Cross Roads farm.

NEXT TO GODLINESS

Soap became a part of his daily life long before he understood its use. He's still more concerned with its bubbles than its cleansing properties—but he knows soap is mighty important.

And no one ever thought of postponing his bath until he was old enough to make decisions for himself!

Wise parents never postpone a child's religious training. Long before he is able to reason, he needs the character-building and guidance of the Church. Christianity should become important to him in his daily experience before its truths can be fully grasped by his mind.

We are fortunate that our churches are equipped to instill a vital Christian faith in the youngest child. Fortunate is the boy or girl whose parents begin his religious training in their church's Nursery or Beginners' Department.

Through the Keyhole

BY MRS. ROBERT CANNON

THE PERFECT HOUSE for entertaining is the way we've always described Ora Sewell's home and last Thursday the one hundred and twenty guests all agreed that the party had been a dream. Ora and Irma Warr entertained at a tea honoring Lela Ann Sawyer who will be married soon.

As the guests entered, the hostesses greeted them, and presented them to the receiving line composed of the bride-elect, Lorene Sawyer and Mrs. Dyes. Lela Ann wore a cloud of brown silk, orsandy lined with pink and fashioned with the huge bell sleeves so stylish this year. Pressed inside the sleeves were pink rosebuds and a corsage of pink roses added to the total effect.

Lorene wore a royal blue wool

jersey beaded all around the décolletage neckline. And Mrs. Dyes wore a smart black silk print.

The living room was attractively decorated in the bridal color, white. On one end of the mantel, a large arrangement of white chrysanthemums, snapdragons and gladioli in crescent shape carried the eye to the silver three-branch candelabrum of burning white candles placed at the opposite end. Betty Dorsey presided over the bride's book from a small table adorned with a single candle rising from a bed of white camellias.

On entering the bedrooms, the guests found lovely white satin covered tables laden with gifts. Elaine Martin of Enterprise, Linda Johns and Clara Ann Dyes were charming hostesses and invited all into the family room which, for this occasion, had been turned into a dining room.

Nothing is prettier than silver, linen and candlelight and this room contained all three. The dining table was covered in white linen and held silver three-branch candelabra with flickering pink candles. From the colonial arrangement of pink roses flowed narrow pink satin ribbons to spread their daintiness on the snowy cloth. Katherine Dorsey presided over the silver coffee service placed at one end of the table and Mary Virginia Dorsey and Mary Alice Lee served punch from a silver punch bowl at the other end. Mints, nuts and sandwiches in silver compotes and trays and wedding gifts, shaped cheese straws complemented the occasion.

DID YOU SEE Mary Will (fondrick) Dickert of Brundage when she and husband, Jack, were here last week? She is always looking like an illustration from "Vogue" magazine of what the ideal young mother should be.

Brakes should be applied gently in a light, rapid pumping action to keep the wheels from locking on a slippery road.

ed the appointments. Janet Warr, Henriette Dorsey, and Tulsa Dismukes assisted in the serving and as each guest left, Mary Jo Brown bid them farewell from the sun porch door.

Adding a final note of perfection to this party was the back ground bridal music which played sweetly the whole afternoon, the sight of one of our favorite men expertly taking pictures of all the precedences and "Miss Auntie" Dorsey circulating among the guests in her always pleasant manner.

THE NEWS coming to us from Dothan about the party Elizabeth Johnson gave for Lela Ann is that she, the house, and the whole affair was simply lovely.

Last Wednesday, Elizabeth gave a luncheon at her attractive home and used pink camellias as decoration. Card tables placed about the living room were covered in white linen and centered with a single perfect camellia blossom nestled in pink net "foliage".

On the mantels pink candles were encircled with more of these blossoms and this same arrangement was re-created on a side table. And the food was just as artistically prepared and served and those attending report not one lull in the conversation.

The honoree complimented her blondness with a royal blue pulley print silk with matching hat. The ten guests from Elba enjoyed seeing Mrs. John Shelly and Mrs. Phillip McLaughlin of Dothan again.

Brakes should be applied gently in a light, rapid pumping action to keep the wheels from locking on a slippery road.

New Dollar-Saving Prices

Stop-Vans, 4-Wheel Drives, many light-duty models with automatic transmissions—all are lower priced. Prices have also been reduced on all optional V8's.

New Torsion-Spring Suspension
Eliminates I-beam shimmy and wheel fight! With torsion springs up front there's a brand-new, smoother, easier handling feel behind the wheel. New rear suspensions include wide-based coil springs in most light-duty models; tougher variable-rate leaf springs in medium- and heavy-duty models.

Electrically Balanced Wheels
Front wheels and tires are balanced at the factory. Helps make that new ride revolutionary!

How Cabs—Wider, Safer, More Comfortable

Many models are a whole 7 inches lower (without sacrificing road clearance), so it's easier to hop in and out of cabs. Still there's more space inside: more room for hats and hips, more foot room with suspended pedals. Cabs are safer, too; new build makes them 67% more rigid.

Plus Improvements

All Through the Line
A new steering linkage system that cuts vibration, means better control. There's new V8 efficiency. Sixes long famous for saving. New key-turn starting. Higher, wider visibility. Talk to your Chevrolet dealer about the world's most advanced trucks.

Goffe County women canned a total of 213,812 quarts of vegetables, fruits and meats during the last summer, according to a recent survey of food presentation by county officials.

Most of the canning was done with pressure cookers under the direction of Mrs. Cora B. Maddox, county home economist for the FSA project and Miss Mamie B. Matthews, county home demonstration agent.

One of the largest real estate transactions recorded here in several years was when Mr. and Mrs. D. J. Brooks purchased from Mrs. Carrie Bulard the entire block of brick buildings known as the May Building for a consideration of \$9,000.

Included in the deal are all the stores from the northwest corner of the square to the large garage and show room now occupied by Nelson Motor Company. Half of the block is of two-story construction.

SKIT AT FHA GETS LAUGHS AT BROCKTON

A skit "A Date With Prince Charming" was the highlight of the New Brockton F.H.A. program presented January 5 in the school auditorium.

Those taking part in the event were Linda Folsom, Rita Adkinson, Linda Adkinson, Linda Farris, Sandra Orreway, Norma Elmore, Faye Bowers and Linda Roberts.

Judy Sawyer and Trish Hayes, dressed as comical characters, presented two skits which were highly enjoyed by the chapter.

An interesting panel discussion was given on "Teenage Problems" with the following serving on the panel: Linda Roberts, Loreta Nicholson, Elaine Hardwick, Linda Farris, Linda Folsom, and Norma Elmore. The panel discussed problems which teen-agers of New Brockton and elsewhere face concerning recreation, homework, money, etc.

The title of the program was "Teens With a Purpose" and the skit truly proved this fact.

A very timely New Year's devotional was given by June Tate. The Chapter was led in group singing by the recreational leader, Linda Roberts.

Following the program, Amelia Herring, president, presided at the business session.

Following the meeting, refreshments were served in the Home Economics Department with the membership committee as hostesses.
